We have Crates here for shipping poultry.

Fair Races Attract Big Crowd.

The racing events at the Didsbury fair have always attracted a large proportion of the spectators, and this year was no exception to the rule. Throughout the afternoon the course was thronged and the various events were pulled off apparently to the satisfaction of all. But very little time was lost in the intervals and this provoked much favorable comment.

The results were declared as follows:

2.40 Class Trot or Pace (1 mile)

Excelli, owned by Frank Sinclair, Airdrie—1st. Goldie, owned by Hugh McBain, Crossfield—2nd. Junior, owned by Hughes Bros., Didsbury—3rd. Nellie G, owned by Sol Weigand, Didsbury—4th.

2.55 Class Trot or Pace 1 mile)

Calgary Lady, owned by Frank Sinclair, Airdrie—1st. Minnesota Patch, owned by Wm. Burrell, Didsbury—2nd. Nigger, owned by Dave Sinclair, Didsbury—3rd. Montana Bell, owned by Hugh McBain, Crossfield—4th.

Open Run (1 Mile)

Fighting Frank, owned by Thos. Morrison, Crossfield—1st. Red Wing, owned by Doc. Preeitt, Bowden—2nd. Chilly Beans owned by Bellamy, Olds—3rd. Kentucky Badge, owned by McCurry, Bowden—4th.

11.2 Pony Race (1-2 mile)

Was very closely contested. Doc. Preeitt's pony took first while Reiber, Crossfield and Rollier, Didsbury with their ponies tied for 2nd money and result was split, second and third purse between them. Bud Leeson of Didsbury with his pony held fourth place.

Novelty Race

Jack Loewen's horse showed good training and kept first money in Didsbury, while Archie Reiber of Crossfield took second money home with him. Dan Blocksom of Olds was third, but only two prizes were paid in this race. Thanks, Dave, for the entertainment.

Relay Race

In this race Thos. Morrison of Crossfield showed fast work with the saddle and won easily, while Doc. Preeitt of Bowden carried off second money.

Boy's Pony Race 13 Hands and Under

In this race there was some terrific speed. Reader, Carstairs took first and Berscht, Didsbury, the second prize.

The judges were Geo. Haag, Ed. Blain and Doc. Malmas.

Among the many events taking place on the fair grounds last Wednesday, the horseshoe competition was by no means the least, and from the number of those present it is safe to say that its establishment as an annual event would meet with general approval. Sid Watt proved a capable manager of the event and the various stages of the contest were pulled off with considerable snap. There were sixteen entries. Of these Hazelton was the only local man to reach the semi-finals. In the finals, Samis and Loomas of Olds played off for first place, the latter proving 'best man' of the two.

KNOX UNITED CHURCH.

The minister, Rev. A. E. Hayes, returned after the holidays and plans to take the services at both Westcott and Knox Sunday, August 22nd.

Rosebud Hotel Suffers Narrow Escape from Serious Fire.

An outbreak of fire in the basement of the Rosebud Hotel, last Friday morning at about eight o'clock was responsible for the ringing of the fire alarm bell, and a very anxious period for many. The outbreak was first detected by the presence of smoke in the kitchen, and the hotel clerk, S. Boulton, coming in took the hotel hose and descended into the basement, where he discovered quite a little fire in progress. Fortunately, the water tank on the premises had just been filled, and with a sixty pound pressure behind it the stream of water did a great deal towards checking the blaze. By this time too, the alarm had brought

along the town chemicals and a number of spectators, the latter by means of buckets of water doing not a little to help out.

Many of our business men did fine work there, and it was largely owing to their efforts and to their determination that the fire was eventually extinguished.

The fire had evidently started among a heap of rubbish, and the charred joists of the floor above showed that within a few minutes more it would have broken out into the poolroom above, where it would undoubtedly have seriously menaced the whole building.

As it was outside of the damage done in the basement, comparatively slight, the loss is practically negligible. The poolroom itself was damaged by some of the floor boards being ripped up in an attempt to get at the fire

(Continued on page 8)

PATRONAGE DIVIDEND PAYMENT.

One cent per bushel

A patronage Dividend of one cent per bushel is being paid on street grain purchased by United Grain Growers Limited during the past crop year. Holders of patronage dividend receipts should present them to be cashed at elevator where street grain was delivered.

GIFTS APPRECIATED BY W.C.T.U.

The W.C.T.U. wish to express their appreciation to their many friends who so generously contributed their gifts of food and helped to make the serving of dinner at the fair a decided success. To all who helped in any way we wish to say a very hearty "Thank you."

There are still a number of plates, pie-plates and containers of various kinds at the home of Mrs. Cunningham awaiting the coming of their owners. Two new Wear-ever aluminum pie-plates were taken by mistake. If you will please return them we will see that the owner gets them and yours no doubt are here.

OLDS AND DIDSBURY PLAY GOLF.

In connection with the golf tournament inaugurated by the Calgary Herald, it will be remembered that various districts have been organized within the province, of which Olds and Didsbury form one. By the courtesy of the Didsbury Club Olds will be here Thursday night for a preliminary practice. After that our sister town will play Didsbury to find out which town has the honor of sending a team for the finals at Calgary.

How Do Your Children Grow?

Only a few more days remain of the summer holiday season, and soon boys and girls all over the land will be trooping back to school. Johnny, who was in the fourth grade last year, has passed into the fifth, while Bessie has moved from the eighth grade into high school. They are looking forward to meeting their new teachers and becoming acquainted with new school mates. Their advancement from grade to grade are milestones along the way indicating one form of growth.

In our modern school system both Johnny and Bessie were examined last term by the school nurse and their height and weight recorded to ascertain if they were normally developed for their ages or underweight. From time to time their weights were checked to determine if they were making gains or losses. Johnny gained nearly five pounds during the last term, but Bessie did not do quite so well. The same system of checking up their physical condition will be continued this term. Thus is growth in another way revealed and recorded.

From year to year teachers and parents can follow the growth of the children under their care in these two respects. Examination papers, marks received, application displayed in studies, passing from grade to grade, into high school and college, tell the story of mental growth, increase in knowledge, and development of those powers of thought and concentration which mark the advancement of our modern civilization. Measurement charts and weight tables, increased application in study, more vigorous enjoyment of sports and all forms of outdoor recreation, in like manner reveal physical growth. These two things are fully demonstrable, and through our modern methods in education we demonstrate them. We know, by comparison of records extending over a period of years, that the standard of intelligence is higher and that the span of life is being lengthened.

It is well that these tests and measurements of the mental and physical development of the younger generation should be made, that records be kept, and that these be compared and analyzed so that we may know where strength and weakness exists, and thus learn the correctness of falsity of the methods being employed.

Our school system, however, has a greater function to perform than the giving of knowledge, the development of boys' or girls' mental faculties, and the encouragement of right living leading to physical health and strength. These things are, after all, but the foundation stones upon which to erect that noble structure which true education is designed to build—character.

Our examination tests and physical records do not, and cannot, reveal whether as a result of the school term any hardening of character has been added to the wobbly parts of any boy's moral backbone, or any of the essence of spirituality made more fragrant any girl's standard of conduct. Intellectual equipment and bodily vigor without character only serves to launch into the world a man or woman capable of doing greater harm than they could otherwise do. On the other hand, the development of a fine character, supported by bodily vigor and those attainments and refinements with which education endow, results in giving to the world the greatest of all gifts.

Character training should be the aim of education, first, last, and all the time. No child is too young to begin it; no student is old enough to dispense with it. Those who provide education, whether it be the teacher, the parent, boards of school trustees, or the taxpayer whose money maintains our educational system in its entirety, are engaged in fitting others to take their places in the life and activities of the world. They must not forget the fundamentals.

Life is becoming more strenuous year by year; the newcomer must be better equipped than the one whose place he takes. Activity crowds upon activity, distraction upon distraction. Science and invention is setting a swift pace which calls for all the resources of mental and physical power of which the race is capable. But above all it calls for strong characters, men and women of sterling honesty, uprightness of purpose, high ideals and noble ambitions.

Within the first quarter of this present century greater advancements in science and invention have been made than in any like period in the world's history. The world has moved forward at an unprecedentedly rapid pace, and the developments of the past twenty-five years have but opened the way to even more momentous and still more rapid strides in the years just ahead. The boys and girls of today must be fitted for the great responsibilities which will be theirs. If they have character they will rise to the occasion; lacking it, danger signals can be seen on every hand.

Character is the perpetual reminder that education carries with it a responsibility. How do your children grow? In mental attainments; towards physical perfection; in strength of character?

"That's a good one on me," said the bee, as the minister sat down on him. Wrinkles caused by worry are the result of worrying over something that worry could not help.

Has Established A Record

Paris Clerk Gives Gallons of Blood To Heal Sick

Having given 22 liters, roughly five gallons, of his blood in 87 transfusions and operations since November, 1924, Raymond Briez claims to have established a record. Briez is a healthy looking, fresh complexioned young man, employed in the clerk market of Paris. He is 29 years old, is married, and leads a normal life, going to the office every day.

He happened one day to visit a sick friend in a hospital and met Dr. Becart, who stopped him and said, "You have a splendid looking pair of cheeks, I have good use for you."

He had his blood analyzed and the first operation was performed, which since then he has repeated almost continuously. Dr. Becart presented him to the International Congress on Surgery in 1925 and an American doctor offered him \$25,000 to come to America.

Sour Stomach Risings Subdued by "Nerviline"

A Few Drops Bring Relief

The wonderful relief you get from twenty drops of Nerviline will surprise you. Take it in sweetened water, and almost immediately you feel better. Nerviline brings up the gas caused by fermenting food, and relieves that distressed feeling in the stomach. When colic or cramps strike you at night, Nerviline is a sure relief. For general use in the family, for emergent ills, always keep trusty Nerviline on hand. 35c at all dealers.

Bridges Built In Dark Ages

Eighteenth Century Engineers Had To Re-invent Principles Of Construction

It is a curious light upon the interpretation of our common term "the dark ages" that those "dark ages" should have given England nearly all the bridges she had till the time of the Georges, for bridge building perished with the destruction of the monasteries, and even the principles had to be re-invented by eighteenth century engineers.

RUN DOWN IN HEALTH

Why Many Men and Women Are Badly Handicapped

When you are so run down in health that it impairs the efficiency of your work as well as your power to enjoy your leisure hours, or obtain rest, it is time you looked to the cause. If you do not, a serious breakdown is almost sure to result. In nearly all cases this condition, which doctors usually describe as general debility, is due to poor blood—blood that is deficient in red corpuscles. When the blood is thin and weak your whole system suffers. You lose appetite, have no energy, your nerves trouble you and you feel restless.

What you need is help to build up your blood and you should begin at once to make your blood rich and red by taking Dr. Williams' Pink Pills. You will soon notice the difference in your health by a better appetite and increased vigor. The reason is that the new blood created by Dr. Williams' Pink Pills stimulates all the organs of the body to healthy activity and so the system gains nourishment and strength. "If you are weak or out of sorts, begin gaining new strength to-day by taking Dr. Williams' Pink Pills. 'I was in a badly run down condition,' says Mrs. J. Potter, of Winifred, Alta., 'when I began using Williams' Pink Pills and they fully restored my health. I strongly recommend this medicine to all weak people.'"

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Air Service To Red Lake

Flights by regular aeroplane service into the northern goldfields of Manitoba and Ontario will soon be as common as stepping on the gas of any motor bus travelling into all districts surrounding Winnipeg. The newest route through the air to be organized for business is that of the Patricia Airways and Exploration Limited, which promises a daily service from Sioux Lookout, on the Canadian National Railways, to Pine Ridge, Red, Woman, Birch and Cat Lakes. Special stamps have been issued and necessary permission to carry mail has been given by the post office department.

There are two ways of running for office—the other one being when the alarm clock doesn't go off in time.

Minard's Liniment for Corns and Warts

SMP ENAMELED WASHBOARD

Bootleg Booze Is Fatal

Alcohol Causes Third of the Heart Disease Mortality

One-third of the 116 deaths attributed to heart disease and the same proportion of 49 laid to apoplexy during July were traceable directly or indirectly to alcohol, according to Health Commissioner Francis E. Fronczak, of Buffalo. He expressed the opinion that physicians failed to give the real causes of death in many instances to protect the names of families of the dead.

Out of the 29 deaths admittedly due to alcoholism during the month, 14 were caused by wood alcohol poisoning, the commissioner's report says.

The Many-Purpose Oil.—Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

Queen "Hat" Reconstructed

Queen "Hat," who was the Queen Bess of ancient Egypt, has been reconstructed by Mrs. Winnifred Brunton, and Londoners are now able to get some idea of the appearance of the strong-minded ruler who dressed as a man on state occasions. The real name of this queen was Hatshepsut. But Egyptologists have nicknamed her "Hat."

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

Canada's Highways

Canadian highway development last year cost \$150,000,000. There are 400,000 miles of highway in the Dominion, 55 per cent. of which are unimproved earth, 10 per cent. gravel.

Keep Minard's Liniment handy

Rather Hard to Answer

Emily had been fascinated by Uncle Will's stories. Particularly was she impressed with some exploits of Teddy Roosevelt before he became president of the United States.

"And do you remember him?" asked the little girl.

"Yes, indeed," replied her uncle.

"You see, I'm much older than you."

"Well, then," she asked, "how much older will I have to be before I can remember him?"—Christian Science Monitor.

Encourage Canadian Authors

Assistance Should Be Given To Canadian Writers Dealing With Canadian Material

The advice of Robert Watson, Canadian novelist and poet, given at a session of the Canadian Authors' convention in Vancouver, was to make literature a crutch rather than a staff. The Canadian reading public was limited and where two or three well known authors had their works distributed years ago, there were scores today. He thought, however, that Canadian writers should get a number of level-headed businessmen to take up the question of syndicating by Canadian newspapers, Canadian material by Canadian authors. He laid special stress upon the fact that while the American Government taxed the work of Canadians going into the United States, the Canadian Government put no taxes upon the enormous flood of American literature circulated in Canada.

A very interesting talk upon his experiences with publishers was given by Arthur Hemming, noted Canadian author and illustrator.

Reduced by Asthma. The constant

strain of asthma brings the patient to a dreadful state of hopeless exhaustion. Early use should by all means be made of the famous Dr. J. D. Kellogg's Asthma Remedy, which more than any other acts quickly and surely on the air passages and brings blessed help and comfort. No home where asthma is present in the least degree should be without this great remedy.

Railmen Leader to Tour Canada

J. H. Thomas, general secretary of the National Union of Railwaymen, is about to embark on a tour of Canada, says the Westminster Gazette. Mr. Thomas, who was instrumental in ending the British general strike, is booked for a six weeks' tour of Canada.

Porter.—This train goes to Buffalo and points east.

Old Lady.—Well, I want a train that gets to Syracuse, and I don't care which way it points.

MANY ARE KILLED AS RESULT OF FIGHT IN MEXICO

Mexico City.—The department of the interior announces that it has no knowledge of the incidents mentioned by Archbishop Ruiz.

Archbishop Leopoldo Ruiz y Flores, who has arrived from Michoacan, has informed the Archbishopric that two Catholic priests and between 27 and 37 Catholic citizens were executed by the military authorities on August 1 and 2 on a charge of heading an uprising growing out of the religious situation.

The archbishop reported that the disturbances occurred in three towns in the states of Michoacan and Guanajuato. A battle between soldiers and citizens lasted for a day in the town of Zahuayo, Michoacan. The bishop estimates that probably about 50 persons were killed in the battle. The other two towns where disturbances occurred were Acambaro and Irapuato in the state of Guanajuato.

Archbishop Ruiz y Flores said that the people of Zahuayo refused to deliver the Catholic churches to the municipal committees appointed to take them over after the priests had ceased to function on July 31. A group of 50 soldiers arrived from a nearby garrison and were fired upon by the people, who took up positions in the church towers and house roofs and engaged in a day's exchange of shots. The next day federal reinforcements arrived and subdued the Catholics. The soldiers then executed two priests and the leaders of the citizens.

Calls King A Coward

M. B. Bennett Uses Some Harsh Words At Woodstock Meeting

Woodstock, Ont.—Speaking at a convention of North Oxford Conservatives here, Hon. R. B. Bennett, federal minister of finance, charged that by seeking a dissolution "in order to escape the verdict of the House of Commons on the Stevens' amendment," former Premier Mackenzie King had proven himself to be "the greatest coward who has ever held the office of prime minister of Canada."

"I use these words deliberately," said Mr. Bennett. "It is ridiculous to say that he asked for a dissolution in the public welfare and because there was a breaking-away from proper government. There was a breaking-away of his Progressive supporters because the public welfare meant more to them than the fortunes of a political party. A ballot for the Liberal party is a ballot to condone the conduct of Mackenzie King."

Swedish-Austrian Treaty

Is Eighth in Series to Makes War Illegal

Stockholm.—An unlimited arbitration treaty, making war illegal under all circumstances, has been concluded between Sweden and Austria, the eighth in a series of somewhat similar nature recently signed by the Swedish Government with various European neighbors. The previous ones were with Norway, Finland, Denmark, Poland, Belgium, Czechoslovakia and Germany.

Funeral Of Hon. George Boivin

Granby, Que.—Attended by the sorrowing relatives and representatives of the governor-general, the late parliament, political colleagues and the Quebec bar, the remains of the late Hon. George H. Boivin, ex-minister of customs, were brought to his birthplace and, after the mass at the parish church, were committed to the grave, where the body will rest beside those of Mr. Boivin's father and mother.

Customs Probe At Halifax

Ottawa.—It is expected that investigation into the administration of the department of customs will be resumed at Halifax on Wednesday, August 25. Word to this effect has been received here. It was thought that the investigation would be resumed at an earlier date, but this is now unlikely.

The total British national debt is about 171 pounds per capita.

W. N. U. 1612

Deals With Robb Budget

Hon. Chas. A. Dunning Addresses Audiences in Ontario

Stratford, Ont.—There was a large gathering at the town of Mitchell to hear Hon. Charles A. Dunning, minister of railways and canals in the King administration, who spoke in the interests of Fred G. Sanderson, the Liberal candidate in that riding. Michael Hagarty, president of the South Perth Liberal Association, presided, and gave a brief address, as did also the candidate, Mr. Sanderson.

Mr. Dunning claimed that the people of the west knew the people of the east better than the people of the east knew the west, and gave as the reason the fact that so many residents of the west were natives of Ontario.

Mr. Dunning spoke at length on the trouble in the customs department and praised the work of the late Hon. George H. Boivin.

He dealt at some length with the Robb budget and declared that it was the best the country had experienced since confederation, particularly in the benefits which had been given to the man of modest means. He gave a somewhat detailed statement regarding the tariff board plan and declared that such a board was merely to secure information so that parliament might have some definite basis on which to judge changes in tariffs.

No Interference Reported

Sir Henry Thornton Says He Has No Complaint to Make Regarding Political Interference

Brandon, Man.—Premier Meighen produced telegrams exchanged between himself and Sir Henry Thornton, president of the Canadian National Railways, in regard to allegations of political interference with the Canadian National management. Mr. Meighen read the correspondence at his meeting here. It opens with the following telegram from Mr. Meighen to Sir Henry, dated August 6:

"Statements are being made that the present government, including myself, have been and are interfering with the management of the National Railways. I ask you to wire me whether there is the slightest foundation for these assertions and if so to advise me what it is."

Sir Henry's reply follows:

"I have received your telegram of August 6 reading as follows: (here Sir Henry quotes the text of Mr. Meighen's message). Sir Henry then adds: 'In reply I have to say that the administration of the Canadian National Railways has no complaint whatever with respect to the attitude of the present government or, indeed, the preceding government in their relation to the National Railway system.'"

B.C. Sheep For Russia

Vancouver.—Forty-six pure-bred Hampshire sheep, purchased in British Columbia for the Russian Soviet Government, were shipped on board the Japanese steamer Paris Maru for Vladivostok. The animals ranged in price from \$35 to \$60 each. They were selected by Arthur Morton, Dominion sheep promoter for British Columbia.

Returned After Many Years

Owen Sound, Ont.—A Parks, of this city, received through the mail a letter which he posted on Sept. 27, 1898, almost 28 years ago, to his brother-in-law James Stewart, at that time resident in Marquette, Michigan. Mr. Parks mailed the letter from Williamsford where he was in business at that time and it had never been delivered.

Count Plunkett's Daughter Arrested

Dublin.—Fiona Plunkett, daughter of Count Plunkett, well known Republican member of the Dail, was among a dozen Dubliners arrested on charges of the theft of books and papers belonging to money lenders. They also were charged with the possession of arms and remanded for a week.

Not An Ultimatum

Sofia, Bulgaria.—The diplomatic representatives of Jugo-Slavia, Rumania and Greece, have handed a collective note to the Bulgarian foreign minister regarding the activities of the Bulgarian irregulars. The substance of the note was withheld, but it is known that it is not in the nature of an ultimatum.

SUBJECTS WHICH WILL COME UP AT EMPIRE PARLEY

London.—Forecasts in the newspapers here with regard to the subjects to be discussed at the Imperial conference in October which seemingly are based more or less on semi-official information reveal little more than was suggested a short time ago.

With reference to the status of the Dominions, The Manchester Guardian says the subject possibly will be raised by Canada or South Africa but if not, it certainly will be raised by the Irish Free State.

As to the alleged anomaly complained of by the Irish Free State in the continuance of the system of the governor-general signing all the dispatches from the Irish to the British Government, The Guardian says it regards this as really not of much importance.

Much more important, The Guardian continued, is the declaration that "no one shall possess power to have any say in regard to the work of a Dominion to interfere with it or veto it, except the Government of that Dominion." In practice this is recognized, The Guardian says, but what is demanded is an explicit declaration that this is part of the British Commonwealth constitution.

The Guardian notes also that the Irish Free State has taken a firm stand against appeals from Irish courts being carried to the judicial committee of the privy council. This, The Guardian adds, is by no means a non-contentious issue within the Dominions other than the Irish Free State.

New Air Service

Passenger Aeroplane Flight From Detroit to Winnipeg

St. Paul, Minn.—The proposed freight and passenger aeroplane route from Detroit to St. Paul was extended to Fargo, N.D., and Winnipeg, Man., under plans made at a conference of officials interested in the Ford reliability aeroplane tour.

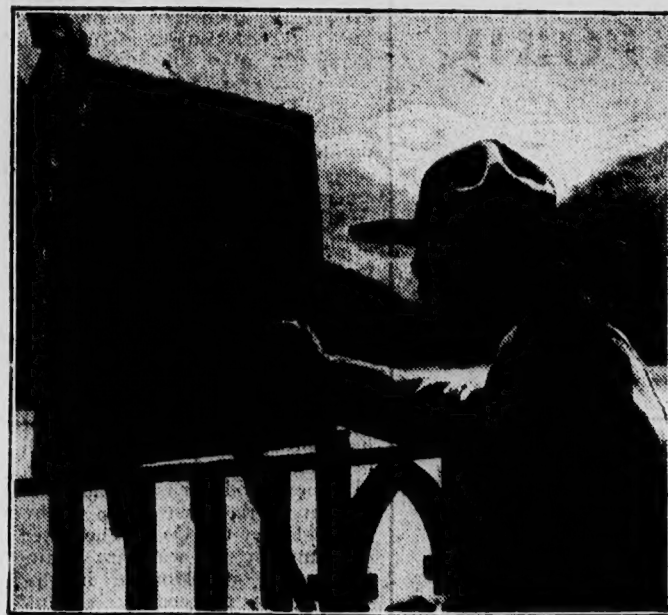

The conference decided to start the new air service next spring.

Pilots of the planes participating in the reliability tour tuned up their machines this morning for the hop today to Des Moines, Ia.

Defeats Two More Swimmers

Cape Gris Nez.—The turbulent English Channel again has turned back two persons who aspired to swim it. They are Mme. Jean Slon, a French woman, and Omer Perrault, a Canadian.

Starting from Cape Gris Nez at 10:15 o'clock at night they swam until 4 o'clock in the morning, when the heavy seas and rain squalls compelled them to abandon their attempt to get across to Dover.

Paints Lake Louise Against Time

The scenic beauty of Lake Louise, although portrayed on canvas many times by celebrated artists, still makes excellent material for the artists who have done their best to reproduce the colors surrounding this gem of the Rockies and make it realistic enough to draw the admiration of the general public.

The above photo shows Belmore Brown, of Banff, the well-known Canadian artist, at work on a picture of Lake Louise from a balcony of the Canadian Pacific hotel named after the lake. Mr. Brown is painting this picture for an exhibition which will shortly take place in England, and has promised to have it ready in two weeks' time.

Siberian Slayers Sentenced To Death

Gang Killed Whole Families and Peasants Were Terrorized

Tyumen, Siberia.—Ten desperadoes were sentenced to death here for the murder of more than 100 victims.

Chief among the condemned was the notorious woman, Ekaterina Pishanov, wife of the leader of the gang, who himself was known to the intimidated peasantry as the "Jack the Ripper of the Ural Mountains."

The woman was accused of killing her victims with an axe.

The robbers had been organized into a strong band of several scores with rigid rules, the slightest infraction of which was punishable by death. For two years the district had been terrorized by these arch-criminals who are accused of having killed whole families.

They attacked government warehouses, strangled the guards and seized stores of vodka and textiles which they sold at a great profit.

The crimes of these robbers and of others who emulated them grew so frequent and so bold that the Soviet minister of internal affairs sent a commission to Tyumen with forces strong enough to restore order.

Tyumen is the oldest Russian town in Siberia, about 120 miles north-west of Tobolsk. It formerly was of great importance as a depot of Russian-Chinese trade.

Canada Has Received Another Gold Shipment

Makes Over Six Million From New York in Two Weeks

New York.—A shipment of \$1,000,000 of gold to Canada has been announced by the Bank of Montreal, a continuation of the movement that started about two weeks ago in response to the strong premium on Canadian exchange. The Canadian dollar was quoted at a premium of five thirty seconds of one per cent, which is about the level at which the bulk of the recent shipments were made.

A total of \$6,500,000 of gold has been shipped to Canada since the beginning of the present movement. The strength in exchange is attributed to the heavy financing that was done here recently on behalf of Canadian industries.

Report Is Denied

Winnipeg.—Reports that the Saskatchewan Wheat Pool had withdrawn from the central selling agency of the three western pools were denied here by D. L. Smith, selling agent, who said "there is no truth for the report."

Will Aid Settlers

Victoria.—By order-in-council the cabinet has voted five hundred dollars to aid settlers who suffered losses in a recent tornado in the Spring Lake district of the Cariboo country near Prince George.

INCREASE SHOWN IN PRELIMINARY CENSUS REPORT

Ottawa.—An average increase of nearly five per cent. in the population of twenty federal electoral districts in Manitoba, Saskatchewan and Alberta, as compared with 1921 figures, is shown by the quinquennial census of the three prairie provinces taken as of June 1. The total population for these 20 electoral districts is given as 803,526, contrasted with 735,308 in 1921.

This announcement is made in a preliminary statement of population issued by the Dominion bureau of statistics. Further announcement of the census of the thirty-four remaining electoral districts in these provinces will be made shortly.

Ten federal electoral districts in Manitoba, five in Saskatchewan and five in Alberta, are included in the statement. In Manitoba, all electoral districts covered show increases over the 1921 population. These are Brandon, Lisgar, Marquette, Selkirk, Springfield, St. Boniface, Winnipeg North, Winnipeg North Centre, Winnipeg South and Winnipeg South Centre.

In Saskatchewan, Last Mountain, Long Lake, Regina and South Battleford recorded increases, while Swift Current showed a decrease of 329. Swift Current city, however, shows an increase as contrasted with its population in 1921, of 655.

In Alberta, Calgary East, Calgary West, Camrose and Vegreville register increases, while Medicine Hat shows a reduction of 7,975. The city of Medicine Hat, though, shows only a reduction of 115 of this total. Of the 54 cities and towns mentioned and located in the 20 federal electoral districts covered in the statement, 35 show increase in population over 1921 figures, while 19 show decreases.

The figures now given, it is distinctly pointed out, are subject to correction, as certain adjustments on account of closed houses and absentees, as well as of the population of certain Indian reserves which were reported by agency only, remain to be made.

Studying Conditions For British Women

Lady Cecil Is Spending Some Time in Western Canada

Winnipeg.—The Hon. Lady Cecil, C.B.E., is travelling across Canada in the interests of the society for the overseas settlement of British women, of which she is vice-chairman. Lady Cecil spent a day or two at Calgary, studying opportunities for settlement of British women as domestic, nurses or nursery governesses, and making a general survey of the success of the work in which she is interested. She visited at the Chateau Lake Louise, going from there to Kelowna to inspect the hostel which her society has established in the Okanagan.

This is Lady Cecil's first visit to Western Canada, though she and her daughter have spent several months visiting in the east. Their home is at Lytchett Heath, Dorset, with a town house in London.

Will Welcome Channel Swimmer

Bissiden, Germany.—This little Wurttemberg town, near Stuttgart, is all excitement over the promised visit of Gertrude Ederle, the New York girl who recently swam the English Channel, to see her grandmother.

Officials, athletic clubs, and singing societies will vie with the 77-year-old Mrs. George Ederle, owner of the Lamb's Inn, to prepare for a hearty reception.

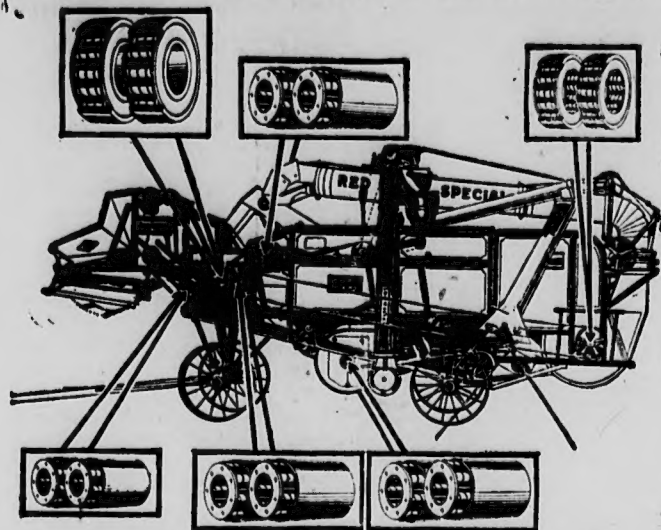

To Control Phones

Brussels, Belgium.—The telephone and telegraph services of Belgium will be placed under the management of an organization similar to that controlling the railways, under the terms of a bill the government has decided to introduce in parliament.

Has Month's Immunity

Ottawa.—For a period of one month, a motorist who is a resident of the United States, may bring his car into Canada without having to file a bond with, or pay duty to, the Canadian customs officials.

Because it SAVES All the GRAIN—
Here's a Thresher You'll Want!

12 Hyatt Roller Bearings Make It Light Running

Hyatt Roller Bearings running on smooth case-hardened steel shafts, that reduce the power needed to thresh, and a new manufacturing method, now place the always good Nichols & Shepard Separator within the reach of thousands of farmers. A Fordson successfully pulls the little 22 x 36, and the power requirements on all sizes are greatly reduced. The price is no more, much less on some models.

12 Hyatt Roller Bearings in a thresher! No more babbitt to pour, no more hot boxes, no more pulleys and shafts out of line, just a smooth, steady motion all day long, rolling on bearings that last for years.

Local and General.

Mrs. J. R. Miller is spending a few days with friends in Edmonton.

Mrs. W. Hillyard returned on Monday from a visit to Edmonton.

Divine service will be held in S. Cyprian's next Sunday evening at 7.30.

Vera Saxsmith and Nelly Wilson left on Tuesday to spend their vacation at Banff.

Russell Berscht and Ben Robinson are spending a vacation at Banff.

Alec Robinson commenced cutting his wheat on Monday and A. Bagshawe started operations on Wednesday.

Miss Moy left on Tuesday for Hillcrest where she will resume her teaching.

Mrs. S. G. Watt and family return this week from their summer vacation at Buffalo Lake.

Miss Johnson, of the Didsbury high school teaching staff, returned on Saturday from Edmonton.

Two cars of cattle and two of pigs were shipped out by Kendrick and Good last week, one of which went to Toronto, the remainder going to Calgary.

Mrs. Cressman, Mrs. Eluid Cressman, Miss Cressman, Ben Rosenberg and family, and Mrs. Herber and family spent several days at Banff last week.

Messrs. J. V. Berscht, Geo. Liesemer and Dr. H. C. Liesemer were amongst those who took in ex-premier King's meeting at Calgary Monday night.

Deputy Chief of Police Blackwood and wife and Constable Gardner and wife passed through here by auto last Friday night and were the guests for the evening of Mrs. Cressman.

Gerhard Neufeldt commenced cutting his wheat last week and had finished seventy-five acres when the rain temporarily stopped operations. He has a good sample and being on breaking is well satisfied with it.

Bert Cressman and Tommy Johnson left the beginning of the week on a short tour over the Banff-Windermere road. They have all the paraphernalia necessary to make the trip thoroughly enjoyable and among other articles too numerous to mention they have of course their golf sticks.

Mr. Lorne Good, son of Mr. and Mrs. M. Good, has been appointed principal of the high school in place of Goldwin Liesemer resigned. The new principal will therefore not be altogether unknown here. After serving overseas, Mr. Good came back and resumed his studies eventually took his degree. Since that time he has been teaching in Calgary.

The S. G. Ferdig Co., operating in the Kevin-Sunburst oil field, brought in last week a well producing 1000 barrels a day. This new producer is on the same section as the lease taken up by the Didsbury Oil Co. The latter company, by the way, are awaiting further development in the vicinity, are proceeding to sink another well themselves. There are now three and half million barrels of oil stored in the Kevin-Sunburst field, all of which was produced this year.

Under the supervision and management of the W.C.T.U., the dining room at the fair grounds on August 11th proved a great success. It was well patronized throughout the day and catering as it did to hundreds of visitors it more than justified itself.

The tables were splendid and but little was left of these at the close. The pies, cakes, etc., proved a great temptation, one of the latter called "moonshine cake" being especially attractive to the masculine fraternity.

Local subscribers will be interested to hear that the Didsbury telephone exchange has been awarded second place in the competition open to exchanges throughout the province. The idea of the contest is to foster and encourage the local staff to improve the grounds surrounding the exchange, and those of our readers who have watched the efforts of Mr. Boorman and his capable assistants in their work during the summer will agree that the honor conferred upon them is thoroughly deserved. The first prize in the contest went to Calgary and the third to Strathmore.

In response to numerous requests from local patrons, Mr. Sharp of the Didsbury Opera House has succeeded in getting a picture starring Mary Pickford. She will appear here in "Little Annie Rooney," and to give everyone a chance to see her two shows will be given this week—Friday at 8.30 and Saturday eight o'clock. In order to ensure a seat patrons are requested to arrive early. Next Wednesday, August 25th, Lon Chaney, will appear in "The Tower of Lies."

An auction sale will be held on Monday, August 30th, at C. C. Weatherby's, south-west 22-32-4, w. 5th, 18 miles south-west of Olds and two and a half miles west and half a mile south of the Harmattan store.

Auction Sale.

Having received instructions from C. C. Weatherby, I will sell by public auction at his farm, south-west 22-32-4, west of 5th, 18 miles south-west of Olds, and two and a half miles west and half a mile south of the Harmattan store, on

Monday, August 30th,

the following described property—

NEW FEATURE AT THE FAIR.

Continued from page 8.
er drawn by a Fordson tractor. The driver sat upon the binder and with a rope connected with the tractor pursued operations with complete success.
Adshead's Garage had on the grounds a Nicholls and Shepherd thresher in operation, and a large number viewed the running of the machine with obvious curiosity and interest. Cecil was also observed showing a new Chevrolet sedan and truck, both of which came in for their full share of attention.
Fisher & Edwards showed a Massey-Harris binder and plow, and another threshing outfit was there under the supervision of N. W. Drew of Olds and N. M. Johnson of Carstairs.

THE WHEAT POOL AND TRADING IN FUTURES

(Quoted from the Chicago Price Current-Grain Reporter, issue of August 4th, 1926)

The feature of the last day of the month's trading was the heavy deliveries of wheat to the trade by the wheat pool. It is estimated that at least 3,000,000 bushels of the total deliveries for the day were from the pool. The pool all the week has been pounding the market and checked any advances by throwing in the stuff in chunks.

This is perfectly legitimate business. The pool is a member of the exchange and entitled to the facilities provided for it as a member. Its operations in futures are on a very large scale.

But the promoters and propagandists responsible for its organization announced that one of the main objects of the pool was to break up the Winnipeg Grain Exchange. It was also frequently preached by the farmers' friends that short selling was a crime, that future trading and hedging were unnecessary as far as the pool was concerned, that it was in fact inaugurating a new and enlightened method of marketing. This bundle was swallowed by a lot of farmers, but not all. From now on the highly paid pool propagandists will find their ingenuity taxed to explain. At that, you can't fool all of the people all of the time.

The Canadian Co-operative Wheat Producers, Ltd. (The Wheat Pool) is in the limelight these days. The public and the pool members have been informed that officials of the company suffered from writer's cramp from signing checks, and how millions of dollars have been distributed among the members of the pool by the interim payment of July 26.

So far members have received \$1.40 a bushel for No. 1 Northern wheat. In a statement issued by pool officials they are led to hope that they may get a little more. The president of the Manitoba pool offers a word of comfort—the pool paid \$1.60 all told last year. He did not depress his clients by telling them that on a whole lot of grades and mixtures there was nothing more coming. However, they know it now that they have their checks.

On the trading floor of the Exchange the feature of the past week has been the heavy and persistent selling of futures by "A certain big interest." Brokers do not divulge the names of their customers, but pit traders know where this selling is coming from. This short selling is on the face of it by parties who have the wheat to deliver and mean to deliver it.

As it is, \$1.40 a bushel looks small compared to \$1.52 1/2, the average price paid by the trade. It would look smaller should the average price by the end of the crop year be \$1.60 or over.

The general conclusion is that the big interest is more interested in keeping prices down than in any other for the present.

WORLD HAPPENINGS BRIEFLY TOLD

A Reuter dispatch from Moscow says it is semi-officially announced there that the Russian Baltic fleet has sailed for manoeuvres in the Baltic Sea.

The Grand Army of United Veterans in annual convention at Kamloops, decided unanimously to enter the Canadian Legion of the British Empire Service League.

Believed to be one of the oldest negro women in Canada, Mrs. Matilda Parnell, aged 104, died recently. Up until a year ago she was active in her life-long work as a laundress.

Col. Sir William Wilson Hoy, Johannesburg, general manager of railways and harbors, South Africa, will accompany the South African premier, General James Barry Hertzog, to the imperial conference.

A new era in air transportation with installation of taxi freight and passenger service between municipal air ports in Winnipeg, Man., and the principal cities of the north west states is in prospect as a result of the Ford Reliability Aeroplane Tour.

Vergil, immortal singer of old Rome, is at last to be honored with a monument in his home town. A national subscription, to which the government is adding 100,000 lire, is to defray the cost of a statue in Mantua, Lombardy.

Sesqui Faces A Huge Deficit

Philadelphia Exposition is Confronted With a Debt of Large Proportions

The Sesquicentennial Exposition not only faces court action to prevent operation of its amusements on Sundays, but it is also confronted with a huge operating deficit and needs \$2,700,000 to meet outstanding obligations. Despite these developments, however, Mayor Kendrick took an optimistic view of the situation, asserting that the celebration of the one hundred and fiftieth birthday of American independence was "cheap at any price" and that he was confident the citizens of Philadelphia would support and encourage the Sesqui directors.

Some New Answers

New answers were given to old questions in a test given recently to high school sophomores at Sacramento, Cal. "Alcohol is made from gasoline," "air brakes are used on balloons," "organdie is a kind of marmalade," and "bacon comes from a cow," were some of the answers.

Canada's National Emblem

Union Jack Is Only Suitable Flag For Dominion

What objection can be raised to the Union Jack as Canada's national emblem? This Dominion is a part of the British Empire. No person openly advocates separation. But the only argument that the Sentinel can think of for a distinctive flag must rest upon Canadian independence.

Assuming that Canada is to remain a part of the empire, then the Union Jack is not only suitable, but highly desirable as the flag of this Dominion. It is an emblem of liberty. It has a history of which every man and woman of British blood should be proud. It is emblematic of the highest type of civilization to which mankind has yet attained. It speaks of service, not only to one race, but to all races—world service in the broadest sense of the term. It is respected by all nations, and it is feared by aggressors against freedom.

The Union Jack is part of an inheritance that includes even-handed justice to all classes, the right to civil and religious liberty, personal freedom to live according to one's conscience, and glorious traditions that have marked the advances of humanity to higher levels with each succeeding generation.

To supplant it with any other design, no matter how artistic it may be, is to rob the Canadian people of their invaluable inheritance accumulated through centuries of earnest strivings for what is best.

Let Canada keep the Jack as its national emblem.—Sentinel, Toronto.

Slender Lines Find Favor

The rich designs of the bordered materials form decided trimming features in themselves. Cut to slip on over the head, and with a convertible collar that may be fastened high, this distinctive-looking frock for daytime wear is developed in bordered crepe of graduated polka-dot pattern. A single large tuck in front of each shoulder gives easy fullness over the bust, and the long full sleeves are gathered into narrow wristbands. There are two large patch pockets, and a narrow belt is worn at the low waistline. No. 1197 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 bust requires 3 1/2 yards 36-inch, or 2 1/2 yards 40-inch, or 2 1/2 yards 54-inch bordered material as pictured. Price 20 cents.

The secret of distinctive dress lies in good taste rather than a lavish expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

New Industry For Palestine

Government Establishes Plants to Take Salt From Dead Sea

The Palestine Government proposes to erect a plant for the recovery of thirty odd billion tons of salt from the Dead Sea, and very soon huge chemical factories and warehouses will be established round the lake, and the peace and quiet of centuries will give place to the ceaseless whirr of wheels. It is remarkable that one of the most desolate spots in the world should suddenly acquire such tremendous economic importance. Of all the billion tons of salt in the Dead Sea, only about ten tons is common salt. The remainder consists of salts of potassium and magnesium, an abundance of which will make Palestine the richest potash country in the world. In appearance this strange sea challenges the Mediterranean with its clarity and blueness, but so deathly still are its waters that they have earned it its gruesome name.

Potential Murderers

Vendors of Deadly Alcoholic Brew and Their Work

What must be thought of the concocters and the vendors of this fatal brew? They must know it to be deadly in its effects, and that anyone who drinks it does so at the risk of his life. Are they not potential murderers? Technically they may not be guilty of murder, for their purpose is not to kill but to make money; and yet, callously careless as they are of human life, and knowing as they must that every bottle they sell may be the instrument of death, their offence more closely resembles murder than does the act of a man who, under the stress of a sudden gust of anger, strikes and kills.—Hamilton Herald.

Will Cover Large Range

Many Subjects To Be Discussed At Empire Parley

The agenda of the Imperial conference to be held in London in October will cover a wide variety of subjects. The agenda is incomplete as yet, but some of the matters to be discussed have been announced.

These are promotion of inter-imperial trade, including the work of the imperial economic committees and the empire marketing grant; overseas settlement; economical defences and currency within the empire; exhibition within the empire of empire films; the work of the imperial shipping committee; airship service and empire air route; co-ordination in technical liability of state enterprises to taxation.

There are still some subjects to be announced, Sir Henry Drayton, acting prime minister, said.

Gave Practical Demonstration

Famous Scientist Records "Heart Beats" of Snapdragon

Sir Jagadis Chandra Bose, the famous Hindu scientist, who says plants have heart pulsations, caused something of a sensation before the British Association by revealing the "heart beats" of the snapdragon by means of a delicate apparatus.

His apparatus, part of which was introduced to the assembled scientists for the first time, recorded the action of the snapdragon's heart beat.

Sir Jagadis also demonstrated that nervous reactions in plants are stimulated by drugs in the same way as human beings.

FOR "Cholera Infantum" MOTHERS SHOULD USE

This valuable preparation has been on the market for over 50 years, and has no equal for offsetting the vomiting, purging and diarrhoea of cholera infantum.

SUNDAY SCHOOL LESSON

AUGUST 22

THE TEN COMMANDMENTS: DUTIES TO GOD

Golden Text: Thou shalt love Jehovah thy God with all thy heart, and with all thy soul, and with all thy might. Deuteronomy 6:5.

Lesson: Exodus 19:1-20:11.

Devotional Reading: Psalm 19:7-14.

Explanations and Comments

The Preface to the Commandments: The Appeal to History, verses 1, 2—"And God spake all these words": We call these words the Ten Commandments, the Decalogue (from the two Greek words deka, ten, and logos, word). The children of Israel had already attained to a knowledge of these religious and moral principles—they knew that they should not worship idols and should not kill—but here at Sinai they learned that these principles were from God. "They may have thought that they had found out all this for themselves, but the real Leader had been the Spirit of the Lord. It is important for us to remember that God was in all the process of moral training which led up to Sinai, as well as at Sinai itself" (Bishop Francis J. McConnell). "We cannot suppose that Moses was a mere mechanical instrument in conveying their laws to Israel from Jehovah, or in embodying great principles of religion or civil order in practical institutions. God uses instruments that are fit" (Dr. A. B. Davidson).

Possible to Broadcast Heat Waves

It is no more improbable to broadcast heat waves than it is to broadcast sound waves, according to Prof. E. S. Dibble, of the Carnegie Institute of Technology. Discovery or invention of instruments capable of controlling heat waves, and a detector that will hold the waves and amplify them are the main need.

"Do you like shrimps, Helen?"

"Oh, George, you're not so small!"

Answer to Last Week's Puzzle

No Alibi For the Choir

A young clergyman gave out the weekly church notices as follows:

"On Thursday, God willing, there will be a mothers' meeting at 5 p.m."

"On Friday, God willing and the weather permitting, we will hold the church committee meeting at 7 p.m."

"On Saturday, in any case, there will be the usual choir practice at 6 p.m."

Strange, Romantic Love Adventures of the Flapper you know!

Joanna

by H. L. GATES

Copyright 1925 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

CHAPTER XI.—(Continued)

"I'm afraid I would be awfully funny to you," she said to Yvonne, her excitement at the prospect playing in her voice. "I can't be still, for long, because there is so much I want to do but can't think of, that I just run around in circles."

"But I'll help you, perhaps," Yvonne assured her. "I shall have as enjoyable a time about helping you launch yourself, as you, yourself. There will be a motor car to buy—and I've never got over my fondness for picking out motor cars; and jewels and clothes—it will be a lark, truly!"

Joanna would have yielded to Yvonne's suggestion that to-night would be as good as any other time, but while they waited in the foyer of the restaurant-club for Brandon's car and Yvonne's, Brandon murmured to her:

"Decisions made after midnight are not always safest. Yvonne will welcome you tomorrow, as warmly as to-night. And tomorrow will do you just as well. I am going to drive you home."

"You mean," Joanna said, lightly, "to the rooming-house. Whatever I do, or wherever I go, you must remember that I haven't any—!" She waited a while, while she bit at her lips. Then she finished: "That I haven't had any home, for a long time!"

CHAPTER XII.

Joanna Visits Eggleston

So Joanna, a billow of snow white ermine, nestled in the cushions of Brandon's limousine, went happily to the place she had called home. Went to the rooming house where Mrs. Adams lost her sleep over flapper lodgers. She thought it would be for the last time.

Realization that she was rich, fabulously rich like Yvonne Coutant; like a movie star, like Mrs. Delancy Jordan, with whose son Bob Joanna once had a date, negotiated over his mother's shoulder at the silk counter, had settled at last in her groping brain. Her fight for understanding of the fantastic thing that had happened to her was over, soothed away by the retrospects of the evening. The feel of the ermines against her cheeks and throat and shoulders, the nearness of Brandon, who wore his evening clothes so smartly, the prospects of the morrow when she would move into the aura of Yvonne, the symbol of life, throbbing through her pulses and suffused

her alert body with a gentle glow.

For the twentieth time she resolved to puzzle no more about the source of the money or the reason of it. Something would happen to her, of course. She'd meet it on tiptoes. One thing, though, she must square up. Brandon, whatever his part in her affairs, mustn't think she was—well, the kind of a bell that is all clapper and no ring. She taxed him suddenly:

"Why didn't you want me to go to Miss Coutant's tonight? It would have been much easier than tomorrow."

"A wholly selfish reason," Brandon informed her. "You're an important person to someone, you know, for some reason. Decisions you make now are of consequence. I'd rather not have the responsibility of delivering you into anybody's guidance. Then you will not be able to tell me about it later on, if you feel like it."

"Do you think I shall ever be sorry?"

"Decisions made after midnight are not always safest. I'm going to drive you home," said Brandon.

"That doesn't follow. Certainly, though, Yvonne Coutant represents a distinct theory of what life owes its dependents. You wouldn't adopt her as a counsellor in the same impulse that would lead you to go in for—let us say, uplift!"

"Yet you want me to go to her, to learn from her what to do with my money, to spend it her way, and to become like her? You knew she was going to ask me. You arranged it."

She saw that she had struck home. For a brief moment Brandon was perturbed. Then he smiled to her. "When you begin to accuse me I know I'm getting on," he murmured.

"Oh, I shall let you get on fast enough until I know what's what. Then—"

"And then what?"

"There's no use going to a funeral until somebody's dead. Is there? We won't be downhearted now."

When he stood with her for parting minutes in the rooming house reception hall, where a dim light burned its grim reproach to young ladies who breezed in from midnight to four, Brandon suddenly took Joanna's hands in his and gently drew her to him until she stood quite close, so that she had to lift her chin to look into his face. For a moment she was panic stricken. It was the prelude of a kiss, she thought. She didn't want Brandon to kiss her. Her lips burned at the threat of it. She would not protest if he asked her, or if he took his caress without asking. But it would spoil the evening. Still, when chaps were decent and had contributed what might be called a good time for lack of a better phrase, there was but one coin with which to reward them—the coin that passed frankly as currency. But she didn't want Brandon to take it, and he didn't.

He held her hands and looked down into her eyes silently. She met his gaze steadily, unafraid, but quivering

a little. She had reasoned to herself that tonight she had discovered a clue to her fear and dislike of this cynical, good looking, perfectly poised man, who impressed her always as if he was taking charge of her. It would be woman, she thought. The woman in her leaped to the defensive before him, and with a sense of futility. Kenilworth she could battle on his own ground. Brandon tortured women, she had concluded. She wasn't ready yet to meet him fairly.

But he spoke softly. "Do you know," he said, "I shouldn't be surprised if you'd win through after all!" She caught her breath. "Win through? Why—what?"

He dropped her hands instantly, and his manner changed. "You must forget that," he said, mocking again. "It's another case of a funeral with nobody dead yet. At least don't remember it for a long time."

Georgie, her own new hafs and wraps and gowns, Joanna's shower of gifts, hung from the door top, the chandelier and either side of the mirror, so that she might prop back on the bed pillows and examine them, was awake and waiting. She refused all invitations for the evening, both sentimental and hilarious, frankly admitting she couldn't leave her wardrobe at home alone. Joanna threw off her momentary depression, the aftermath of Brandon's sentimentousness, and plunged into a gay recital of the night's events. Then Georgie broached her own news.

"John was here tonight," she announced. "He was at the bank today. Mr. Eggleston sent for him. Mr. Graydon at the store had told Mr. Eggleston what you had said—that John had suspected the place the money came from. The bank wanted to put him right. John's got it all through his half baked mind and he's like a bird dog that's been pointing the wrong way."

Joanna sank onto the bed, the wistfulness haunting her eyes again. Her plans for the morrow began to crumble, and in their place rose something else, vague and unshapen, but before it she stood side by side with John. Then with a petulant shake of her shoulders she re-assembled her plans, and the arrogance came back into the tilt of her chin.

"But he hurt, George. I don't think—"

"Oh, you can arrange things to suit yourself," Georgie assured her wisely. "He's got six cylinders under the hood maybe, but only one works. I've always told you he was full of carbon. He's frightfully cut up."

"That's not it. I knew he would be some day. It wasn't me he suspected so much as it was anybody, any girl, I mean, who's got knees and isn't ashamed to show them. I'm going to—"

"What?" Georgie prompted her, but Joanna bit her lips and wouldn't finish her sentence.

(To be continued)

Anti-British Sentiment

This Propaganda is Spread All Over France

The British Government was seriously exercised by the flood of anti-British propaganda which is spread all over France, stimulated by the fall of the franc.

While Paris has shown particular antagonism to Americans, the French people in the country attribute the rise in the cost of living to the pound sterling and are still inclined to regard most foreigners as Englishmen. The result is a feeling of irritation and hostility towards Britain all over France.

This is due, of course to ignorance of the situation, but its existence is nevertheless disquieting

New Theory About the Moon

Was Formed From Layer of Earth's Crust is Belief

A new theory is now being put forth that the moon was formed from a layer of the earth's crust, about 41 miles thick, and covering about two-thirds of its total area, and which was pulled off by the attraction of the sun. The crustal area left on earth formed the continents. This theory also accounts for the fact that while, according to generally accepted ideas, masses of lighter density such as make up the earthly continents should cover the entire surface of the globe, they actually cover only about a third, the missing two-thirds consisting of the moon. The new theory also fits in with the ideas of a German geologist, Professor Alfred Wegener, who believes the American continent was originally united with Europe and Africa, and that it floated away to its present place. This would not have been possible so long as the entire earth was covered with such a crust, but after the moon had been torn away it was possible for the continents to separate from their long embrace.

Little Helps For This Week

There shall be one fold and one shepherd.—John x, 16.

Wild bird flying northward, whither thou?

And vessel bending southward, what thy quest? Clouds of the east with sunshine on your brow.

Whither? and crescent setting in the west?

Still we pursue while the white day is ours:

The wild bird journeys northward in his strength:

The tender clouds waste in their sunny bowers.

One shepherd guides and gathers them at length.

—Annie Fields.

He will guide us in a sure path, though it be a rough one; though shadows hang upon it, yet He will be with us. He will bring us home at last. By His eye or by His voice He will guide us, if we be docile and gentle; by His staff and by His rod, if we wander or are wilful; anyhow and by all means He will bring us to His rest.—Henry Edward Manning.

A Remedy for Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

Some people never succeed in finding out which side of their bread is buttered until they drop it.

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

A woman can keep an expense account almost as long as a man can keep a diary.

Minard's Liniment for Dandruff

Hobson.—So your wife is convalescent. That's fine! I heard the doctors made a great fight for her life.

Dobson.—They did, and they almost got it too.

STANDARD OIL CO. (NEW JERSEY)

New Zealanders Patriotic

Few German goods are entering New Zealand, merchants declare. Before the war the importation of German hardware was very considerable, but it is now very small. The average artisan refuses to buy tools unless the name of a British manufacturer is branded on them. Germany has lost all the cutlery trade.

SAVE THE CHILDREN

In Summer When Childhood Ailments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

C.N.R. Earnings Show Increase

The gross earnings of the Canadian National Railways for the period ended July 31, 1926, were \$7,408,639, as compared with \$7,059,027 for the corresponding period of 1925, an increase of \$349,612, or five per cent.

Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a reliable remedy for worm troubles and can be fully relied upon to expel worms from the system and abate the sufferings that worms cause. There are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

"You say Cohen was so badly injured that he lost his speech?"

"Yes, both his arms were broken."

Minard's Liniment for insect bites

Don't imagine that because one of the participants in a quarrel is wrong, that the other is altogether right.

Most men are as anxious to get rich as most women are to be beautiful.

YOUNG WOMEN SUFFER MOST

These Two Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Ayer's Cliff, Quebec.—"I have been teaching for three years, and at the end of the year I always feel tired and have no appetite. I was a full sick each month, too, having pains in my back until sometimes I was obliged to stop working. A friend recommended Lydia E. Pinkham's Vegetable Compound to me and I heard many women telling how good it was so I thought it would help me. And it did. Now I take six bottles every year and recommend it to others."—DONALDA FANTLUX, Ayer's Cliff, Quebec.

"Unable to Work"
Canning, Nova Scotia.—"I had irregular periods and great suffering at those times, the pains causing vomiting and fainting. I was teaching school and often for some hours I would be unable to attend to my work. Through an advertisement in the papers I knew of Lydia E. Pinkham's Vegetable Compound, and it has been of great benefit to me, the troubles being completely relieved."—LAURA J. EATON, Canning, King's County, Nova Scotia.

Genuine
ASPIRIN

Proved safe by millions and prescribed by physicians for

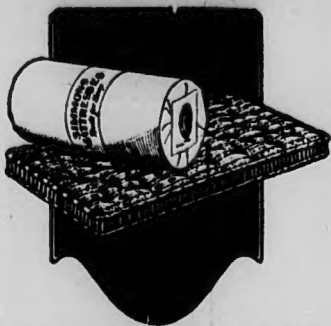

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe
Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mononitro-acetic acid. (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

H. E. Roppel, pastor

The hymn, "Stand up, stand up for Jesus," with "Loyalty" as its key note, is the sermon subject for next Sunday evening. The fatal accident dying message of Rev. D. A. Tyng, in March 30, 1858, gave rise to the setting of his hymn, used for the first time at his own funeral. It is a thrilling story and will be told as a part of this sermon.

The officers and teachers of our Sunday School had a very pleasant and profitable meeting in the home of Mr. and Mrs. J. V. Berscht last Tuesday evening. Twenty-one were present. The meeting took the form of a round table conference. In the course of business each teacher reported in rotation of their respective classes which was followed in each case by comments, wholesome discussion, etc., with a view to greater efficiency throughout the school where ever possible. The school is blessed with an unusually strong staff of officers and teachers with assistants of rare devotion but it is a regrettable fact that so many irregular and non-church going people in this town and community do not avail themselves of the Sunday school and church privileges as they should. In many families the parents lack the vital interest and determination to rise up before their children and say "Come to church and Sunday school," instead of "go." A very fine co-operative spirit prevailed throughout the evening in all the discussions. After the motion for adjournment, Mrs. Berscht served a very delicious and generous lunch enjoyed by all.

ROSEBUD HOTEL HAS NARROW ESCAPE.

Continued from page 1

from a more advantageous position.

At one stage, the smoke from the basement rolled up in dense clouds and soon filled the interior of the building, giving many of the guests cause for serious alarm. In fact, the situation at that time was such that many of them hastily got together their personal belongings and threw them out on the road below, making their own exit down the stairs as speedily as possible.

By about ten o'clock all fear of the fire making further progress had practically vanished, and breakfast served to the guests shortly after conveyed the fact that the hotel had resumed its ordinary routine.

How the fire occurred, or how it originated, is a mystery and it can only be left to conjecture. It was fortunate, however, that the blaze was discovered early enough to enable steps to be taken to fight it, and that it took place when work was being commenced for the day.

A New Feature at the Fair.

Farm Machinery Exhibited
by Local Business Men.

Among the new features introduced at the Didsbury fair on August 11th, and which for want of time mention was omitted from last week's issue, was a display of farm machinery by some of our local business men.

From the great interest taken in the machinery by those on the ground the feature was an undoubted success, and no doubt will encourage the directors of

the Agricultural Society to renew the attempt next year and possibly make the display still larger.

Among those co-operating in this venture was W. G. Liesemer, who when approached upon the matter took it up with enthusiasm. As local agent of the International Harvester Co., he arranged to be sent to the grounds a complete threshing outfit. He had in addition two tractors, a binder, grain tank and wagon. Experienced men were in charge throughout the day and

the machinery was kept in operation continuously. Mr. Liesemer himself was present and personally superintended the operations as well as supplying information to those interested. From the amount of interest created one would judge that the display was an undoubted success and entirely justified its introduction.

Another display that drew the attention of the spectators was that arranged by Roger Barrett, consisting of a John Deere bind-
